

## About change of holding method of the 7th Biennial Joint Congress of JPS-CPS-KAP

At present, there is no permission to enter Japan from South Korea or China, and even if entry is eased and permission is granted in the future, it may be possible to quarantine for 1-2 weeks. It is considered impossible for China and South Korea to participate in international conferences in Okinawa. In addition, since the number of people infected with corona virus is increasing rapidly in Okinawa, it is considered difficult for Japanese to travel to Okinawa.

Therefore, the Organizing Committee has decided to hold this academic conference **Online**. Please see HP for details.
